HYDRAULIC MOTORS

ITALY

SK
series

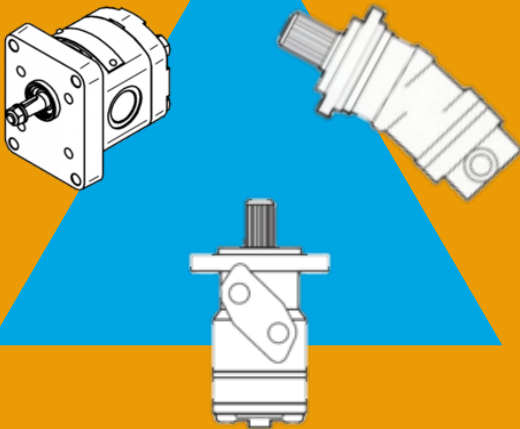

**The most
versatile
radial piston
motor ever**

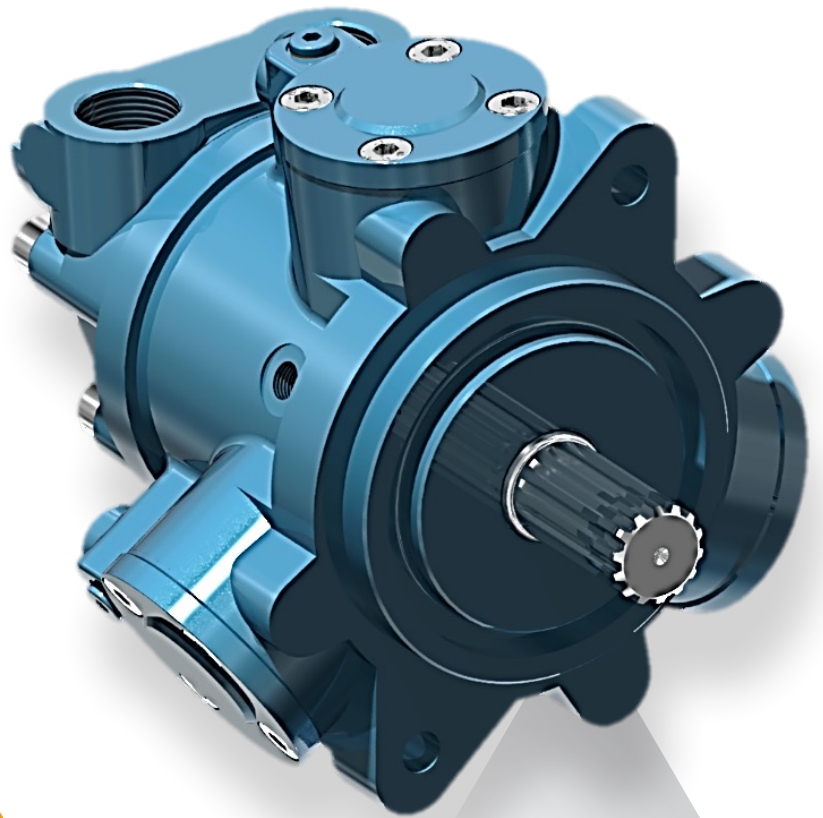

***Efficient,
Controllable,
Fast, Cost
Effective***

UP TO :

- 3200 rpm
- 50 kW
- 350 bar

**1 MOTOR COVERING THE GAP
LEFT BY OTHERS TYPES OF
HYDRAULIC MOTOR**

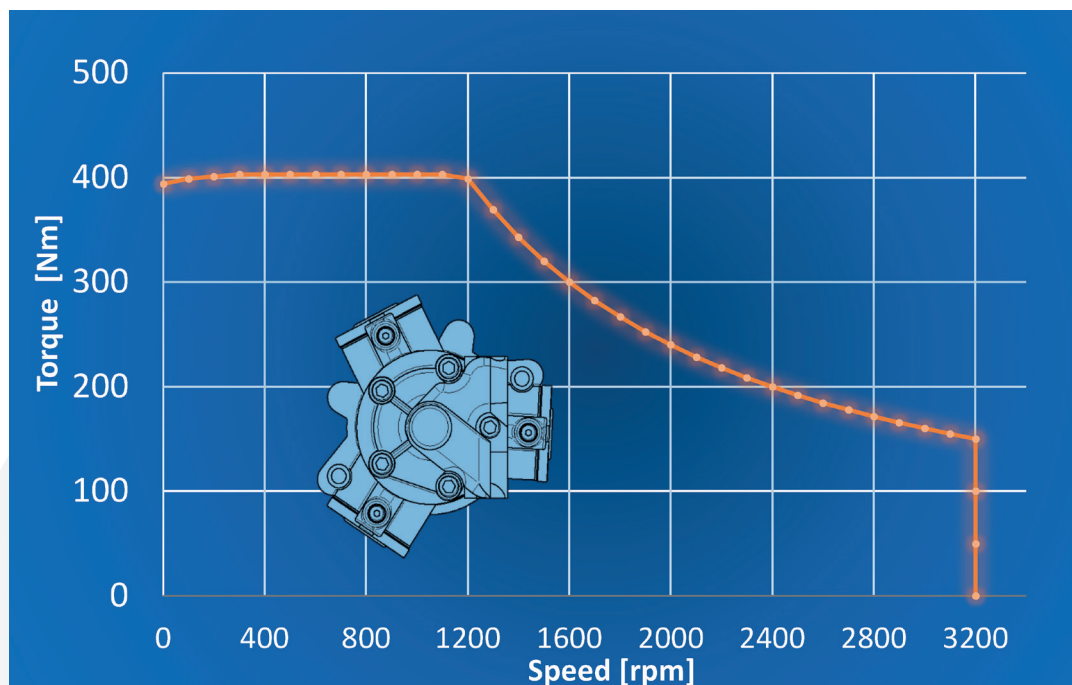

- **No drain Option**
- **SAE mounting**
- **Integrable valves**

The crankshaft radial piston design grants extremely high starting torque and robustness, allowing more performance and available power at the output shaft.

Rotational speed control from 0 rpm with best in class output torque.

Comprehensive working area compared to other motor technologies

Available Displacement Range:

SK02 → 30cc – 45cc – 60cc – 75cc – 90cc

- **High power**
- **Compact size**
- **Cost Effective Design**

Ideal for applications requiring plug-in motor with high longevity, wide speed range, high power capability and extreme torque transmission.
